

## Multiplier Coupons (Gas Bar redeemable coupons)

Multiplier coupons are given out at Canadian Tire Stores to encourage customers to buy their gas at Canadian Tire Gas Bars. These coupons either give a discount or enhance the amount of CTC money received when gas is purchased at the Gas Bar. They usually specify three or four times the regular amount of CTC money to be received. Canadian Tire Corporation has always tried to promote cross shopping between their stores and gas bars. The gas bars give out Canadian Tire money and product coupons to encourage gas customers to visit the store. **The stores give out multiplier coupons to encourage shoppers to buy gasoline at the gas bars.** It is probably not an accident that they came into general use in 1983, about the same time that Aredeemable at gas bars@ was removed from Canadian Tire money.

The following is an attempt to catalogue all of these coupons. Some coupons have been arbitrarily attributed to Ontario because I know that those particular coupons were issued there. The same identical coupons may have been issued in other provinces. Likewise, most French coupons have been attributed to Quebec and most Bilingual coupons to New Brunswick. For many years, New Brunswick has used coupons with no table, with English on one side and French on the other. On some bilingual coupons, the English side has a different valid area than the French coupons on the other side.

I originally had a four digit year because I didn't want to build in a Y2K problem from the beginning. This made the catalogue number a little too cumbersome so I cut it back to 2 digits with the plan of changing the AX@ into a AY@ for the year 2000 to maintain collating sequence.

The following short forms were used to describe these coupons:

Catalogue Number **X/Y YY-MM-DD L Ar D v**, where:

**X/Y** Designates a gas bar 3x, 4x, \$1 off etc. coupon. **P removed**

**YY-MM-DD** Designates the expiration date on the coupons.

**L** Designates the language of the coupon: B (Bilingual), E (English) or F (French).

**Ar** Designates the area in which the coupon is valid and is described below.

**D** is the "Deal" and is 3 (3x), 5 (5x), \$ (money off) etc.

**v** is the variety and is only used when all of the above is not unique. Examples are a, c, d for normal differences; b for blank back, f for flat finish, g for glossy finish, v for blank back on a French coupon etc.

**NOTE** The 12X small clip-outs you get when you signup for a credit card and the online coupons have been removed and are now in separate databases

**Area Codes:**

**A** - Atlantic Canada

**Al** - Alberta

**Bc** - British Columbia

**E** - East

**EB** - East to NB (Ontario, Quebec and New Brunswick)

**Ma** - Manitoba

**Na** - National

**Nb** - New Brunswick

**Nf** - Newfoundland

**Ns** - Nova Scotia

**On** - Ontario

**OA** - Ontario and Atlantic provinces

**OQ** - Ontario and Quebec

**Qc** - Quebec

**QA** - Quebec and Atlantic provinces

**QO** - Quebec and Ontario

**Sa** - Saskatchewan

**W** - West

**WM** - West from Manitoba (Manitoba, Sask., Alberta and BC)

**WS** - West from Saskatchewan (Sask., Alberta and BC)

**VH** column - indicates whether the coupon is **V**ertical or **H**orizontal.

**Litres** - is the minimum quantity of gasoline you must buy to qualify for the deal.

**C-O** - clip-out.

**NS** or **U** - Not Specified.

**Promo** - Promotion.

**Scratch** - Scratch (Usually a scratch to find out whether you get 3x, 4x, etc.)

Not for publication...

First Column:     c - coupon catalogue entry has changed since previous printing  
                    d - coupon doesn=t exist and will be deleted in the next printing  
                    n - coupon is new and has been added since previous printing.

Second Column: Identity of person that has a coupon in the catalogue that I don=t have:

b - Bill Cuff  
f - Roger Fox  
g - Gary Doran  
h - Bob Hunter  
l - Lou Fontaine  
r - Ross Irwin  
s - Bill Symes  
t - Tobie Grimmink  
x – Don Bradt
